

HLZ EazyVPN

Description

- HLZ EazyVPN is a customer support net infrastructure which gives the customer a simple, secure and reliable infrastructure between the HLZ hardware components (computer, PLC, cameras etc.) and Anker Andersen A/S

Benefits

- Remote support of all HLZ components
- Hardware and software analysis while counting
- No downtime of the HLZ machine while diagnosing
- No need for additional knowledge of network technologies
- No port forwarding to the HLZ computer is needed
- Maintenance friendly

Features

- Cisco router based infrastructure
- AES/3DES encrypt/decrypt traffic
- Authentication of VPN tunnel termination

Requirements

- Extra LAN cable to electric cabinet
- Internet access through firewall
- Outgoing calls (port 500 UDP, 4500 UDP/TCP and 10000 TCP) from the firewall
- DHCP server on the customer LAN and allowance of DNS requests from the HLZ EazyVPN router

Scope of Supply

- Cisco router installed in electrical cabinet
